password: marinesciencerules

Directions: You are to create a dynamic, engaging, fun, and interesting website that highlights the content from five of the units that were discussed in Marine Science this year. Each "tab" must contain the following:

1. A minimum of 12 facts specific to the unit
2. A minimum of two pictures relevant to the unit
3. A minimum of two links to other websites relevant to the unit

Your website must also include the following:

1. A minimum of one video related to any of the units
2. 5 interactive review questions about the units included on your page
3. 5 correctly labeled pictures of aquarium fish of your choosing
4. A professional, engaging look

## Potential Topics

1. Aquaria
2. Osteichthyes
3. Chondrichthyes
4. Properties of Water/Oceanography
5. Resources From the Sea
6. Marine Mammals
7. Invertebrates

## Things to Remember:

- Weebly has four major tabs for editing your page
  - BUILD, DESIGN, PAGES, SETTINGS
- BUILD
  - THIS IS WHERE YOU EDIT EACH PAGE TO YOUR SPECIFICATIONS. YOU CAN DRAG AND DROP ANY ELEMENT FROM THE LEFT COLUMN INTO YOUR PAGE
- DESIGN
  - THIS IS WHERE YOU CAN CHOOSE THE THEME FOR YOUR WEBSITE
- PAGES
  - THIS IS WHERE YOU ADD/DELETE PAGES AND CHANGE THEIR TITLES
- SETTINGS
  - THIS IS WHERE YOU CAN CHANGE THE NAME OF YOUR WEB ADDRESS OR THE TITLE OF YOUR WEBSITE
